EXPERIENCE

Product Designer | Anexia
Madrid Sep 2025 – Present

- Co-created a multi-brand design system (3 brands, ~100 components); it is already the base of two products, with the public website migrating onto it.
- Designed the logos of two of the company's products.
- Lead the end-to-end design of an internal SaaS management tool.
- Mapped business processes (N0–N2) in Microsoft Visio and turned them into product requirements.
- Partner with development in an Agile team and take an active part in product decisions.

UX/UI Designer | Nurun
Madrid Nov 2024 – Jun 2025

- Created two design systems for Moeve, one for web modules and one for newsletters, and built the newsletter layouts.
- Designed pixel-perfect iconography and adapted infographics for Iberdrola's new visual identity.
- Contributed to projects for ESERP, Ilunion and Mondelez, in collaboration with LaLiga.

UX/UI Designer | Fujitsu
Madrid May 2023 – May 2024

- Led UX/UI design on major projects, including a government health initiative for web and mobile.
- Ran usability tests and iterated designs based on user feedback.
- Worked closely with front-end teams to ensure accurate implementation (Figma, HTML, CSS, AngularJS, Git).

Front-end Developer | Kerox
Madrid Nov 2022 – May 2023

- Designed and built interfaces for a health product, from Figma prototypes to Angular implementation.

UX/UI Designer Intern | Athagon
Madrid Jun 2022 – Nov 2022

- Designed the UX/UI and built the responsive front end of the company's main website.

Graphic Designer | Freelance
2019 – 2022

- Created visual identities and graphic materials for musical artists.
